

## Job Opportunities Faculty Member

Yokohama City University established the Faculty of Data Science in the 2018 academic year to provide education to cultivate the ability to implement the value obtained from data science in society and the specialized knowledge that forms the basis of such ability with regard to various social issues. In 2020, the Graduate School of Data Science was established to nurture advanced data scientists who will lead digital transformation.

This call is open to anyone who is responsible for the below listed research fields and subjects in the School of Data Science and the Graduate School of Data Science, who has experience in the latest theories and application of statistics, who has the ability to teach statistics as a fundamental study in data science to students, who have overcome various social issues by utilizing data, and who are highly motivated to solve social issues.

Department	School of Data Science Graduate School of Data Science
