

Nursing Course, School of Medicine

Job Opportunities Faculty Member

Known for its highly estimated study and practice in the nursing field, Yokohama City University (YCU) School of Nursing, Faculty of Medicine is unique in public universities in Yokohama area, because no other universities here have such school of nursing. Its aim is to contribute to the region and society by giving students specialized nursing skills and concept with a broader standpoint of view about understanding social needs and substantial changes.

As for educating students at YCU, we have planned the programs to strengthen their nursing practice and abilities to perform any kind of research better, improving and innovating the quality of nursing skills in health and social welfare, which, in the end, will lead students to become leading nurses to make our society better and comfortable in the future. With such aspects shown above, we have already been starting a carefully designed four-year program of English, hoping to let students acquire international nursing skills and abilities to do the research with mutual understanding and cooperation not only in Japan but all over the world. We are sure that will enable them to choose wherever they want to work. The program includes general English, medical English between students and native teachers with a role of patients and academic English used for asking questions in international conferences, writing and publishing research papers. We have been improving our international fieldwork, enlarging our exchanging programs to widen students' ideas and thoughts, which will lead to sending our students abroad and accepting students from abroad.

With this public recruitment here, we would like to have a personnel who is fully motivated and enthusiastic in promoting global activities of YCU in accordance with the international movements in the society and educating students to be highly qualified nurses in the future.

1. take the initiative steps in improving international field work, making plans for accepting students with foreign nationalities, deciding what experiences they would be offered, and taking care of them so that they can get mutual stronger understanding during their stay in Japan and afterward.

2. participate in international conferences, post research papers in international science journals. This is very important to appeal to foreign countries as Japan being active and motivated.

3. take actions to get fund so as to prepare for ideas, continue the research and never give up getting to the scientific results in the end.

We would fully appreciate it when successful applicants, who go on working hard to do the better education, research and contribution for our planet.
